- A: One of the best professors I've ever had! It is a tough course, but somehow he managed to help his students understand.
- A: Dr.Cooksy is one of the most knowledgeable men I have ever met. I really enjoy the subject and he left me amazed and eager to learn more after every class. I appreciated the extra time he designated to us with office hours and review sessions. Physical Chemistry is a difficult subject but I have learned very much and hope to pursue it as a career one day.

A: Prof. Cooksy was very helpful and organized with the material. I found the weekly review sessions very helpful and appreciated him taking the extra personal time to hold them. I look forward to having him next semester!

A: cooksy is amazing

A: The only thing I can fault this course is its hyper-dependency on the traditional class-lecture-on-whiteboard format; reading the book is not even close to sufficient. Some absences are inevitable. If he would only use slides, or the overhead projector, or some sort of visual and audio recording of the lecture that could be uploaded to dropbox or blackboard, he would truly be the perfect lecturer. Professor Harrison could help him find practical ways to make this happen.

A: I could not of asked for a better professor for such a complex subject. The review session that were made available were amazing along with the way the material was presented. In lecture the material was presented in a manner that made the information as understandable as possible for such a complex subject. The 20 minute tests were their own beast within the semester but, I really appreciate everything that Dr.Cooksy did to help us through this difficult class that he is a master of.YOURAGENIUS
